If you want to be challenged about your own leadership style, ability and growth, then this is the program that will change the way you deal with every situation you face at work. The program has achieved this for me and I will continue to use the learnings and the information gained into the future. My greatest and most exciting challenge is using these newly acquired ideas and approaches to continue the necessary leadership changes required in my Shire and in my team. You won't regret the time or effort needed to get the most out of this exciting program. It's great and I recommend it you.

Just starting out in your leadership journey or well on the way; new to the local government sector or an old hand; young or of more mature years - none of that is relevant to what this excellent course can offer to your personal, professional, and especially leadership, development.
